<u>Mugwort</u>	anti-theft, astral projection, banishing, clairvoyance, consecration, divination, prophetic dreams, protection, visions. Essential oil of mugwort creates a delicious warming effect upon the skin, passes rapidly into the bloodstream, and from there has a mild psychotropic effect. If you take a little milk thistle tincture for your liver, you can process the stuff without ill effect. The physical sensations of lovemaking are wildly enhanced, and the dreams you'll have afterward are vivid, prophetic, and memorable. But for heaven's sake: only one drop per couple!
